

MOTO X 2s

MOTO X 2s was formulated to perform well in 2-stroke stock and modified race engines. It has a high-unleaded motor octane of 100. **MOTO X 2s** makes more power than traditional fuels with higher octanes.

Applications; motocross, desert, road racing, ATV, PWC, snowmobiles & carts.

<u>Property</u>	<u>Typical Value</u>
Motor Octane	100
Specific Gravity at 60/60 °F	0.744
Reid Vapor Pressure at 100 °F, psia	7
Distillation Range at 760 mmHg, °F	
Initial Boiling Point	99
10%	175
50%	208
90%	246
End Point	300
Leaded	NO
Oxygenated	YES
Color	Clear Blue

MOTO X 2s Unleaded Racing Fuel contains 17% ETBE (ethyl *tert*-butyl ether) by volume this results in the fuel containing 2.7% by weight oxygen.

F & L Racing Fuels are 100% petroleum derived hydrocarbons and are designed to meet the fuel regulations of most sanctioning bodies. They contain detergent additives, corrosion inhibitors, and antioxidant additives that are added in concentrations similar to those found in commercial fuels.

Please note: This fuel is for off-road use only.
