

UNLEADED RACE FUELS**SUNOCO® 260 GTX™**

Sunoco® 260 GTX is designed for applications that need more detonation protection than street gas provides, yet cannot use tetraethyl lead (TEL). It has been shown to produce good, repeatable power levels in engines up to 12:1 compression ratio, and will tolerate more compression in engines with modern, efficient combustion chambers. 260 GTX does not contain lead or MMT. It does not harm sensors used in fuel injection systems. It is also an excellent choice where oxygenates such as ethanol are limited or banned by the engine manufacturer or sanctioning organization.

FUEL PROPERTY	TYPICAL SPECIFICATIONS
Specific Gravity	0.763
Antiknock Index (R+M)/2	98
RON, Research Octane	104
MON, Motor Octane	94
Reid Vapor Pressure	5.9
Distillation, °F	
Initial Boiling Point	95
10% Evaporation	183
50% Evaporation	221
90% Evaporation	228
Final Boiling Point	248
Unleaded	Yes <i>For Off-Road Use Only</i>
Color	Green
Oxygen, Wt%	0.0%
Dielectric Constant	1.4
